Parents: We are capping the number of young people who sign up at 35 so we are able to maintain ideal coach/student ratios. That means some kids in the community may be unable to attend. So, we want to encourage you to sign your young golfer up for this week and make every effort to see they are present, on time and ready to participate each day.

I believe my child is in good health and able to participate in this Golf Camp. Golf is not a contact/collision sport, but I understand there are some risks from golf balls and clubs that can cause injury. However, I will not hold The El Dorado Country Club, KidsNGolf, their employees, officers or volunteers liable in the case of injury to my child. My child's photo may be used in the promotion of this event through printed media and on the respective web sites and Facebook pages.
